General information

Remove affected person from the danger area and lay down.

After inhalation

If breathing is irregular or stopped, administer artificial respiration. Medical treatment necessary. Do not breathe gas/fumes/vapour/spray. Provide fresh air.

After contact with skin

Take off immediately all contaminated clothing and wash it before reuse.
After contact with skin, wash immediately with plenty of water and soap.

After contact with eyes

Rinse immediately carefully and thoroughly with eye-bath or water. In case of eye irritation consult an ophthalmologist.

After ingestion

Rinse mouth immediately and drink plenty of water. Induce vomiting when the affected person is not unconscious.
